

Dee Fog[®]

Anti-Fog Treatment

Dee Fog Anti-Fog Treatment provides lens defogging while retaining clear, undistorted vision. Dee Fog's formula is compatible with mirrors or lenses, including front surfaces. It is available in liquid and spray form depending on the needs of the practitioner. Dee Fog Liquid is applied by dripping a small amount of liquid and spreading it evenly over entire mirror/lens surface. Dee Fog Spray is sprayed directly to the surface. Dee Fog Liquid is sold as a 1 oz bottle. Dee Fog Spray is sold as a 2 oz manual pump spray.

Description	Size	Item No.
Dee Fog [®] Anti-Fog Treatment - Spray	2 oz	0504
